FIG. 32 is a perspective view of the system 10 showing the system 10 in a folded position. The system 10 includes a main body 120 and a handle 200. The main body 120 is formed by a plurality of segments 121 connected by hinges 206. The handle 200 is connected to the main body 120 at one end. The system 10 is shown in a folded position, with the handle 200 and the main body 120 being collapsed together. The system 10 is also shown in a partially unfolded position, with the handle 200 and the main body 120 being extended. The system 10 is designed to be portable and easy to use.
